

1: IDENTIFICATION OF THE MIXTURE AND OF THE COMPANY

1.1. Product identifiers

Product name: **COB – INOX**

1.2. Relevant identified uses of the substance or mixture and uses advised against

Product for cleaning and shining stainless steel (inox) surfaces

1.3. Details of the supplier of the safety data sheet

Company: "COBART CHEMICALS", K. BARBOUNAKIS SA
Adress: 27 Samou Str., Ilioupoli, Athens – Greece , PC 16342
Telephone: +30 2109954953
Fax: +30 2109962356
email: cobart@otenet.gr

1.4. Emergency telephone number

+30 2109954953 (08.00am – 16.00pm)

2: HAZARDS IDENTIFICATION

2.1. Classification of the substance or mixture

Classification according 1272/2008/EC (CLP Regulation) & regulation 1907/2006/EC (REACH Regulation): The product is classified as hazardous: Skin Corr. Cat. 1

2.2. Label elements

Pictogram:

Signal word: **Danger**

Hazard statement: **H226, H304, H413**

H226 - Flammable liquid and vapour

H304 - May be fatal if swallowed and enters airways

H413 - May cause long lasting harmful effects to aquatic life

Precautionary statement: **P260, P262, P301+P310, P501, P210, P303 + P361 + P353, P370 + P378**

Other information: It contains heavy naphtha, heavy alkylate

2.3. Other hazards

None

3: COMPOSITION/INFORMATION ON INGREDIENTS

3.1. Substances

-

3.2. Mixtures

Name	CAS number/ Eines Number/ Index number	REACH number	% w/w	Labeling according Regulation (EC) No 1272/2008 [CLP]
Naphtha (petroleum) heavy alkylate	64741-65-7 265-067-2 649-272-00-4	01-2119471991-29-XXXX	85-95%	Flam. Liq. 3, H226 Asp. Tox. 1, H304 Aquatic Chronic 4, H413
Siloxanes and Silicones, 3-[(2- aminoethyl)amino]pr opyl Me, di-Me, methoxy-terminated	102782-92-3 600-354-1 -	-	1-2,45	Skin Irrit. 2; H315 Eye Dam. 1; H318
Propan-2-ol	67-63-0 200-661-7 603-117-00-0	01-2119457558-25	0,5-0,95	Flam. Liq. 2; H225 Eye Irrit. 2; H319 STOT SE 3; H336
Dimethyl, (Aminoethylaminopr opyl)methyl Siloxane, Trimethylsiloxy- terminated	71750-79-3 615-336-9	-	<0,45	Eye Dam. 1; H318 Skin Irrit. 2; H315

4: FIRST AID MEASURES

4.1. Description of first aid measures

In case of eye contact	Rinse thoroughly with plenty of water for at least 15 minutes. Consult a physician immediately.
In case of skin contact	Wash off with soap and plenty of water
If inhaled	If a person remains in an area contaminated with vapors or fumes of the preparation (in case of fire), move person into fresh air. If not breathing, give artificial respiration. Consult a physician.
If swallowed	Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician immediately. Never give anything by mouth to an unconscious person.

4.2. Most important symptoms and effects, both acute and delayed

It may cause severe damage in contact with eyes, dermal irritation and it may be fatal if swallowed and enters airways

4.3. Indication of any immediate medical attention and special treatment needed

No data available

5: FIREFIGHTING MEASURES

5.1. Extinguishing media

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

5.2. Special hazards arising from the substance or mixture

The preparation is flammable. Exposure to smoke can cause significant health problems.

5.3. Advice for firefighters

Wear self contained breathing apparatus for firefighting if necessary. The equipment for firefighting must meet general requirements of Directive 98/37/EC and 94/9/EC. Firefighter's uniforms and personal protective equipment must be approved.

6: ACCIDENTAL RELEASE MEASURES

6.1. Personal precautions, protective equipment and emergency procedures

The preparation is flammable. In case of fire, hazardous vapors are formed. For this reason it is recommended to take personal precautions such as fire detection systems in warehouses, self-contained breathing apparatus for personal protection from the gases of combustion, marking points of water supply for the possibility of eye and / or skin wash.

In case of product release use the appropriate personal protection equipment as it is referred in section 8

6.2. Environmental precautions

Avoid leakage of product undiluted in drainage. In case of product leakage a dilution with water it is recommended.

6.3. Methods and material for containment and cleaning up

In case of limited leakage an absorbent medium as sand, diatomaceous earth can be use and after the picking of absorbent quantity a wash with plenty water will be needed

6.4. Reference to other sections

For disposal see section 13.

7: HANDLING AND STORAGE

7.1. Precautions for safe handling

Avoid contact with skin and eyes. Avoid inhalation of vapor or mist.

Do not eat, drink and smoke in work areas. Wash hands after use. Remove protective equipment and working clothing before entering in eating areas. Do not transfer the product to containers without appropriate labeling.

7.2. Conditions for safe storage, including any incompatibilities

Store the product in cool place. Keep container tightly closed in a dry and well-ventilated place away from children. Keep the product away from food and feed.

7.3. Specific end use(s)

Use the product as it is. Do not combine the product with other products or chemicals. When use this product wear the appropriate equipment for personal protection. Use the product in a well ventilated area

8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1. Control parameters

Avoid contact with skin, eyes and clothing. Wash hands before breaks and immediately after handling the product.

8.2. Exposure controls

a) Safety handling and use of product as it is

Eye/face protection	Tightly fitting safety goggles. Face shield (8-inch minimum). Use equipment for eye protection tested and approved under appropriate standards such as EN 166 (Code 3: against drops and splashes of liquids)
---------------------	---

Skin protection	Handle with butyl elastomeric or nitrile gloves (EN 374)
-----------------	--

Body protection	It is no needed
-----------------	-----------------

Respiratory protection	The product does not contain hazardous chemicals on health and safety. Respiratory personal protection equipment should be used in case of fumes from a fire. The equipment must meet the requirements of EN 149 and the filter requirements of EN 143
If swallowed	Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician. Never give anything by mouth to an unconscious person.

b) Safety handling and use of product after dilution (2g per liter)

No specific handling measure are required. In case of daily and long time use of the diluted product it may be needed the use of gloves (latex).

9: PHYSICAL AND CHEMICAL PROPERTIES

9.1. Information on basic physical and chemical properties

Appearance Form:	liquid
Colour:	Colourless
Odour:	Pale odor
Odour Threshold:	no data available
pH	no data available
Melting point / freezing point	no data available
Initial boiling point and boiling range	no data available
Flash point	not applicable
Evaporation rate	no data available
Flammability	not flammable
Upper/lower flammability or explosive limits	no data available
Vapour pressure	no data available
Vapour density	no data available
Relative density	no data available
Water solubility	undiluted
Partition coefficient: n-octanol/water	no data available
Autoignition temperature	no data available
Decomposition temperature	no data available
Viscosity	no data available
Explosive properties	no data available
Oxidizing properties	no data available

9.2. Other information

-

10: STABILITY AND REACTIVITY

10.1. Reactivity

No data available

10.2. Chemical stability

The product is stable under normal conditions of use and storage.

10.3. Possibility of hazardous reactions

No data available

10.4. Conditions to avoid

No data available

10.5. Incompatible materials

Strong acids and acid products

10.6. Hazardous decomposition products

No data available

11: TOXICOLOGICAL INFORMATION

Acute toxicity	No data available
Irritation	No data available
Corrosivity	No data available
Sensitisation	No data available
Repeated dose toxicity	No data available
Carcinogenicity	No data available*
Mutagenicity	No data available*
Toxicity for reproduction	No data available

*According to Reg. 1272/2008/EC, Naphtha (petroleum) heavy alkylate is classified as Carc 1B, Muta 1B, Asp. Tox 1. in case that benzene exceeds 0,1% w/w. In this product benzene does not exceed that limit.

11.1. Information on toxicological effects

No data available

According to product classification it may be fatal if swallowed and enters airways

12: ECOLOGICAL INFORMATION

12.1. Toxicity

No data available

According to product classification it may cause long lasting harmful effects to aquatic life

12.2. Persistence and degradability

The product is degradable.

12.3. Bioaccumulative potential

The product has not any bioaccumulative potential

12.4. Mobility in soil

The product is very soluble in water.

12.5. Results of PBT and vPvB assessment

No data available

12.6. Other adverse effects

The product does not destroy the ozone layer and it does not contribute to the creation of smog.

13: DISPOSAL CONSIDERATIONS

13.1. Waste treatment methods

The waste packaging management should be in compliance with national legislation. The product does not contain any toxic element for the environment.

14: TRANSPORT INFORMATION

14.1. UN number

ADR/RID: 1268 IMDG: 1268 IATA: 1268

14.2. UN proper shipping name

ADR/RID: Petroleum distillates, n.o.s., UN 1268 Petroleum distillates, n.o.s., 3, III, (D/E)

IMDG: UN 1268 Petroleum distillates, n.o.s., 3, III, (D/E)

IATA: UN 1268 Petroleum distillates, n.o.s., 3, III, (D/E)

14.3. Transport hazard class (es)

ADR/RID: 3 IMDG: 3 IATA: 3

Label:

14.4. Packing group

ADR/RID: III IMDG: III IATA: III

14.5. Environmental hazards

ADR/RID: none IMDG Marine pollutant: none IATA: none

14.6. Special precautions for user

14.7. Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code

No data available

15: REGULATORY INFORMATION

This safety datasheet complies with the requirements of Regulation (EC) No. 1907/2006.

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

No data available

15.2. Chemical safety assessment

No data available

16: OTHER INFORMATION

•Text of H-code(s) and P-phrases mentioned in Section 3

H226 Flammable liquid and vapour

H304 May be fatal if swallowed and enters airways

H413 May cause long lasting harmful effects to aquatic life

P102 Keep out of reach of children.

P260 Do not breathe dust/fume/gas/mist/vapours/spray.

P262 Do not get in eyes, on skin, or on clothing.

P301+P310 IF SWALLOWED: Immediately call a POISON CENTER or
doctor/physician.
P501 Dispose of contents/container to ...
P210 Keep away from heat/sparks/open flames/hot surfaces. – No smoking.
IF ON SKIN (or hair): Remove/Take off immediately all contaminated
P303 + P361 + P353 clothing. Rinse skin with water/shower.
P370 + P378 In case of fire: Use ... for extinction.

Cobart Chemicals declares that the above information is believed to be correct and in accordance with current legislation (according to MSDS version date or revised date) but does not purport to be all inclusive and shall be use only as a guide. The information in this document is based on the present state of our knowledge and is applicable to the product with regard to appropriate safety precautions
